

Ref no: HF223322

TO WHOM IT MAY CONCERN

This is to certify that Miss Noushin Bibi (CNIC: 33202-4078796-0), daughter of Mehfooz-ul-Rehman, has been working with us from June 2021 till now as a Python Engineer.

She specializes in backend development using Flask, Firebase, HTML, CSS, and JavaScript, and continues to contribute to our team with dedication and technical expertise.

Her key responsibilities during the job included:

- Designing, developing, and maintaining robust backend systems using Python and Flask.
- Integrating and managing databases using Firebase for smooth data flow and real-time applications.
- Collaborating with frontend developers to ensure seamless integration of backend and frontend components.
- Writing and optimizing efficient code for scalable backend performance.
- Implementing security protocols and troubleshooting issues across the application.

Noushin Bibi has demonstrated exemplary skills and a strong work ethic throughout her employment. We wish her all the best in her future professional endeavors.

Regards,

Faisal Saeed

Chief Operating Officer (COO)
